

# Selected Links about Native American Languages

Our site is designed to present information about American Indian languages contextually-- language by language and tribe by tribe. These are linguistically diverse languages deserving of individual attention, and it is very difficult to make accurate generalizations about them as a group. However, our site is also unfinished and may be of limited use to people seeking information on a language we have not yet covered. For this reason, we are providing some links to the main pages of sites with information about many different Native American languages. Hopefully if you are looking for a language we have not finished work on yet, these sites can provide a starting point for your search.

- [Teaching Indigenous Languages](#): News, papers and columns about Native American language education
- [Society for the Study of the Indigenous Languages of the Americas](#): Indian language news, articles, and links
- [Indigenous Language Institute](#): Organization working on American Indian language preservation programs
